

Maximized Fuel Efficiency, Increased Uptime, Lower Maintenance Costs and Happier Drivers!

Automated Manual Transmissions (AMT) Are Taking Over and For Good Reason

AMTs are beginning to reign over manual transmissions in Class 8 trucks and for good reason! They have proven to increase fuel efficiency, increase uptime and driver comfort, also lowering maintenance costs. By 2027, AMTs will represent the majority of the transmission operating population, totaling more than either manual or automatic transmissions.

TRC has your AMT needs covered!

- 2 offerings on all models to suit your needs; Basic Plus and Complete
- 2 Year Unlimited Mileage Warranty
- Product Expertise and Technical Support for a Complex Product
